## Around the Square

Oh, well, we'll try again. Last week, we suggested that an organized window-decorating contest might be conducted for local youngsters on Halloween, with prizes going to the best "art" work. We further suggested that the event could be sponsored by local merchants.

We had anticipated that a representative of the Chamber of Commerce would be at the News office by noon Thursday, begging for the chance to sponsor the contest. It's now Thursday morning OF THE NEXT WEEK—and not even a nibble. Halloween is just 2½ weeks away. How about it?

This being National Fire Prevention Week, Sierra Madreans should give a special nod of appreciation to this city's Volunteer Fire Department—a group of men who are on call day and night to protect our homes, lives, and property from fire and who have helped keep our fire insurance rates low.

The National Board of Fire Underwriters has always been lavish in its praise of the Sierra Madre Fire Department for its good record in controlling and preventing fire.

Thanks and keep up the good work, boys.

Newspaper people are so seldom on the receiving end of notoriety that we were very pleased Monday night with the Newspaper Appreciation Week program presented by the Monrovia Elks Lodge. The tables were completely reversed, and representatives of many San Gabriel Valley newspapers were feted as guests of honor.

## WOMEN MAY AID X-RAY CAMPAIGN

Sierra Madre women will play an important role during the Los Angeles County Chest X-Ray Survey's visit to this city from Nov. 13 to 18, R. C. Lewis said this week.

Local women will be asked to serve as "hostesses" when the x-ray machines are set up here in an attempt to x-ray every resident over 15 years of age.

Mr. Lewis, who is x-ray chairman for Sierra Madre and five other cities, said citizens are more willing to be x-rayed when solicited on the streets by women they know.

"It also leaves the technicians free to concentrate on operating the x-ray machines," he added.

## Speech Lauds Work of City Fire Fighters

Work of Fire Chief James C. Heasley and the Sierra Madre Volunteer Fire Department was praised Tuesday by a representative of the National Board of Fire Underwriters.

Howard S. Swift, addressing the Kiwanis Club, said the Board "appreciates the good work being done by Jim Heasley and his department in keeping fire losses in Sierra Madre so low."

It was pointed out that fire loss in this city since the beginning of the year has been "between \$4500 and \$5000." A total 13 fire alarms have been answered during that time.

Kiwanis Club members were shown a fire prevention film, "These Are the Facts," pointing out the ever-present dangers of fire and the work of the underwriters' laboratories in making fire losses as small as possible.

Three "Dixieland" numbers were played by an instrumental trio, "The Blues Blowers," featuring Johnny Lucas, trumpet; Ray Evans, drums; and George Kleinberg, pianist.

END OF THE LINE for Pacific Electric's Big Red Cars to and from Sierra Madre came at 5:43 p. m. Friday, when a white chrysanthemum wreath was respectfully placed on the prow of the last car and a trumpeter played "taps." More than 200 Sierra Madreans witnessed the "final rites." Photographed immediately after the ceremony were (left to right) C. W. Jones, pioneer resident; H. S. Dowling, P. E. motorman on the historic trip; Lee Shippey, columnist, author, and well-known Sierra Madrean; Larry Ballenger, trumpeter; and Al E. Morgan, president of the Chamber of Commerce. ## Sierra Madreans Pay Respects to Last 'Big Red Car'

More than 200 Sierra Madreans assembled at the PE Depot late Friday afternoon to pay respects to the last Big Red Railcar to leave this city.

Old timers exchanged anecdotes and memories about the streetcars that have served Sierra Madre for nearly half a century, youngsters studied the final electric car with new respect, realizing that they were witnessing the end of an era in local history.

As the last car—No. 1128—rounded Baldwin and came to a halt at the depot, the crowd grew quiet while Trumpeter

## No Oath, No Check

After Nov. 3, no city employee of Sierra Madre will receive his paycheck unless he has first signed and sworn to a loyalty oath.

The City Council so ruled Tuesday night after hearing a recommendation from the League of California Cities. The action was an aftermath of legislation passed by the state on Sept. 27. In effect, the state law makes every public employee a "civil defense worker."

The Council also ordered that no person will be employed in the future unless he has subscribed to the oath.

## Presbyterians Will 'Kick Off' Building Fund Campaign

Building fund campaign for Trinity Presbyterian Church will start officially today, Oct. 12, with a "kick-off" dinner at 6:30 p. m. at the Masonic Temple.

Principal speaker of the evening will be the Rev. Max M. Morrison, D. D., pastor of the Westminster Presbyterian Church of Pasadena.

The event will launch the drive to raise the congregation's share of the expense in constructing the first unit of the new building to be located at the corner of Sierra Madre boulevard and Hastings Ranch Drive.

Mrs. Gertrude Embree and members of the Trinity Guild are planning the dinner.

Special music selections will be rendered by Mr. and Mrs.

Larry Ballenger played "Auld Lang Syne."

Al E. Morgan, Chamber of Commerce president, and Lee Shippey, columnist, author, and long a streetcar commuter, placed a large wreath—white chrysanthemums with black ribbon on the prow of the Big Red Car. A few of the passengers who had boarded the train at Highland, and the train crew, stepped down from the car to take part in the ceremony.

A brief period of picture-taking and hand-shaking, the crowd again was hushed as Ballenger played "taps." Passengers and trainmen climbed aboard once more, the streetcar emitted one final "toot" and departed around the corner, gone forever.

S. Van Winkle, conductor on the train, admitted he was "sort of sad" to see the streetcars go. Mr. Van Winkle has been on the Sierra Madre run for 25 years and is a local resident.

B. L. Copeland, PE supervisor, agreed, saying "we sure hate to see the cars go." Motorman for the historic trip was H. S. Dowling also of Sierra Madre.

William Ainley, accompanied by church accompanist, Mrs. Mrs. William D. Libby.

The Rev. Clarence Shackelford, pastor, will preside over the first part of the dinner, and Finance Committee Chairman George Parr will be in charge of the second half.

Members of the finance committee include Walter Brown, Mrs. Embree, Charles A. Root, and Willard Young.

## W. E. Deutsch Recalls First P. E. Cars Here

Standing at the edge of the crowd Friday afternoon watching the last PE electric car leave Sierra Madre was William E. Deutsch, 27 W. Laurel, a resident here for 65 years.

The ceremony honoring the last Red Car special significance for Mr. Deutsch, because he was among those present at another ceremony nearly half a century ago—an event welcoming the start of the PE line in Sierra Madre.

Mr. Deutsch recalls that quite a few Sierra Madreans were on hand to witness the first ceremony and hear the dedicatory remarks of Pacific Electric Railway officials.

During those early days, one of the big attractions in the Southland was the burro trips which started at the end of the Sierra Madre line. Weekenders would ride the burros up the steep trails to resorts and breathtaking views above Sierra Madre.

Mr. Deutsch said between 400 and 500 persons arrived on the PE cars for the first week-end burro expedition. His father, Emil Deutsch, operated the burro corral here and built and owned the Quarterway.

Mr. Deutsch's father was one of the first business men in Sierra Madre and owned the old cigar factory on the Northeast corner of Baldwin and Sierra Madre boulevard, with a pool table, barber shop, and cigar stand in the city's first town hall. The factory was in the rear of the hall.

The Deutsch family moved here in 1884, when Mr. Deutsch was 7 years old and when there were only 18 other families living here. The pioneer resident attended school here when it was located in what is now Kersting Court.

## P. E. OFFICIALS PRAISE RAIL CAR 'OBITUARY'

Lee Shippey's "obituary" on the Pacific Electric Big Red Cars, published in last week's issue of the NEWS, has been widely acclaimed by P. E. officials.

J. G. Shea, company representative, said the "obituary" will be reprinted for reading by all P. E. employees. He also asked permission to publish the article in the P. E. trade magazine.

## City Nursery School Open House Oct. 17

Third Annual Open House of the Sierra Madre Nursery School Association has been set for Tuesday evening, Oct. 17, beginning at 8 o'clock.

The event, to be held at the Nursery School building, 701 E. Sierra Madre boulevard, will serve as an opportunity for parents—and other Sierra Madreans, as well—to visit the new facilities and learn about the program.

Parents will literally "go to school" themselves and try their skills at fingerpainting, clay modeling, and other craft activities. Handiwork of the parents will be judged and prizes awarded.

Dr. Nathan Jacobs will present his pictures, showing the Nursery School as it was being constructed and as it now is.

## Raider Sees Series Games

Herbie Lacey, member of the Sierra Madre VFW Raiders baseball team, attended the last two World Series games in New York, last week. He is a former Sierra Madrean and now resides in Mayfair Village.

## Citywide Luncheon Today To Plan Christmas Events

All Sierra Madreans are invited to help plan this year's Christmas decoration program and celebration at a citywide luncheon to be held at noon today (Oct. 12) at the Woman's Clubhouse. Citizens are asked to come to the meeting with "plenty of ideas" so that the 1950 Christmas season in Sierra Madre can be the "best yet."

"This is not just a meeting of the Chamber of Commerce or merchants," Chamber President Al E. Morgan said yesterday. "We want all Sierra Madreans to take part in planning the Christmas holiday events."

The luncheon will begin at 12 noon—the planning session will follow immediately, probably between 12:45 and 1 p. m.

Sierra Madre's Christmas celebration has become almost a tradition throughout the Southland, and visitors come from miles around to view the wintry scene depicted at the P. E. Depot.

## P-TA to Hear Dr. Durfee, Child Expert

Marion B. Durfee, M. D., medical director of the Child Guidance Clinic of Pasadena, will discuss the "Requisites for Grade A Parenthood" at the next meeting of the Sierra Madre Parent-Teacher Association, to be held Thursday, Oct. 19, at 7:45 p. m. in the City School auditorium.

Dr. Durfee, a native Californian, took his bachelor's degree at Pomona College, and master's in psychology at the University of Colorado. He formerly served as director of the Child Guidance Clinic in Worcester, Mass.

The psychologist has taught for three years in California schools and has had experience in teaching children in the psychiatric department of Malloy Hospital, Houston, Texas.

From these varied experiences, Dr. Durfee is well qualified to discuss parent-child relationships. Proving that his understanding of child psychology is not only on the "school-book" level, Dr. Durfee himself is the father of four children.

All parents, regardless of the school their children attend, are urged to attend this meeting. Sixth-grade teachers and mothers will serve as hostesses for the evening.

# Council Ponders Fate Of Depot Pepper Tree

## 'Open House' Tomorrow at Field School

Eugene Field Elementary School will open its doors to residents of neighboring communities with an Open House and Ice Cream Social tomorrow, Oct. 13, between 6 and 9 p. m.

"We are proud of our new facilities and anxious to give all parents, children, and friends an opportunity to see our building and meet our teaching staff," J. Ray Hawthorth, principal, said this week in announcing the event.

The Ice Cream Social is being sponsored by the newly formed Eugene Field School Parent-Teacher Association, members of which will have ice cream and cake for sale during the evening. Mrs. Ward Clark, finance chairman, is in charge. Room representatives will act as hosts and hostesses for the rooms. Mrs. Peter W. Madsen is chairman of room representatives.

Field School is located at 3600 Sierra Madre boulevard.

## BLOOD BANK VISIT PLANNED

A visit of the Red Cross Blood Bank to Sierra Madre is scheduled for Wednesday, Nov. 1, Mrs. Florence Peterson, executive secretary of the local chapter, announced this week.

The mobile blood station will be set up at the Woman's Clubhouse from 3 to 7 p. m.

## EDISON AWARDED CONTRACT FOR STREET LIGHT PROJECT

An otherwise dull session of the City Council was brightened briefly Tuesday night when one of Sierra Madre's landmarks—the PE Depot pepper tree—was brought under discussion.

In answer to a resolution of the Chamber of Commerce, asking that live pepper trees not be "mutilated or removed" without

the approval of the Planning Commission or the City Council, the Councilmen voted that trees should not be removed without approval of the Planning Commission. Councilman Noren Eaton voted "no."

"I don't like the idea of letting the Planning Commission have the last word on something that may delay the street lighting project for the business district," Mr. Eaton said.

(It had been pointed out that one of the street light standards in the project would have to be placed in a "cockeyed position" if one of the pepper trees—reported to be a dead one—was not removed.)

"I don't see why one of four light poles proposed for the corner of Sierra Madre boulevard and Baldwin should be put in askew," Councilman Eaton declared. "And is it practical to hold up the project for one tree?"

Mr. Eaton moved that the

### Paul B. Johnsons Return

## Lack of Leadership Held Big Cause of Arab-Jewish Friction

Greatest cause of trouble in Palestine has been the lack of leadership for both the Arabs and Jews, reports Paul B. Johnson, 720 Skyland Drive, who has returned to Sierra Madre after serving as director of the United Nations relief program in Southern Palestine.

"And only a lack of leadership will cause the outbreak of another war there," Johnson said. "If, however, both sides want to solve their problems and work together with the United Nations, the situation can be overcome."

The Sierra Madiran stated, though, that he is convinced both sides are not trying to solve their problems resulting from the Arab-Jewish war.

As a consequence, a feeling of desperation has seized a large majority of Arabs who see no possible way out of their critical situation, Mr. Johnson said.

Most of the uneducated classes of Arabs in the so-called Gaza Strip want only to be able to go home again. The intellectual realize, however, that their "home" is now the Jewish nation of Israel and they will never be able to return, he said.

Mr. and Mrs. Johnson were sent to Palestine in December to help administer the gigantic refugee program. The

AFSC, League of Red Cross Societies, and the International Committee of the Red Cross jointly administered the task of feeding the some 700,000 Arabs left homeless after the war.

In the Gaza Strip, an almost completely non-productive area five miles wide and 20 miles long, approximately 200,000 Arabs were crowded. It was this area to which the Quaker teams were assigned.

When the United Nations took over complete control on May 1, 1950, Mr. Johnson was asked to remain on as director. Mrs. Johnson served as district registrar, a task that required organization of complete records of origin, employment history, relief and resettlement eligibility for the 42,000 families.

"It was a depressing job only to be able to help keep the Arabs alive and know that solving their problems would be impossible," Mr. Johnson said.

The major casualty has been the decreasing hope among the Arabs of ever having anything and the chance to do work," he stated.

"We are attempting to import enough thread, however, to put the many trained hand-weavers to work."

He said the present UN plan calls for the obtaining of a million meters of cloth, from which it is hoped 600,000 garments will be made.

The next step in Palestine? Both Johnsons are frank to say they don't know what it can be. At present, the UN is scheduled to stop feeding the refugees on Dec. 15.

Mr. Johnson is returning to his post as regional head of the American Friends Service Committee with offices in Pasadena. Last Saturday evening, the Sierra Madre couple gave the first formal showing of the 150 color slides taken during their stay in Palestine. The showing was before the monthly AFSC committee meeting held in Whittier.

### Mothers Help Out As Scout Leaders

Because of an unusually large membership this Fall, Girl Scout Troop 13, has been divided into three patrols under the leadership of various mothers.

Mrs. Katherine Lukas is Rosebud patrol mother; Mrs. Martha Arnold is Silver Maple patrol mother, and the Pandas are led by Mrs. Elsie Dammeier, who acts as troop treasurer.

The Panda Patrol earned its backyard camping badge this weekend when tents were set up in the Dammeier yard, 84 Esperanza. Assisting were Mrs. Molly Cohen and Mrs. E. Ramsland.

Official leader of Troop 13 is Mrs. Bessie Halloway. This group is comprised of fifth graders from the three local elementary schools, and are classed as Intermediate Girl Scouts.

At the recent Pomona Fair, more than 20 of these girls participated on stage in flag drills and songs and demonstrated some of their class activities in Scout booths.

### Santa Anita Ave. Now 'One-Way'

Santa Anita Avenue is now a "one-way" street north of Grandview, the City Council decreed Tuesday night.

Northbound traffic must use the east side of the "double drive;" southbound traffic must use the west side.

The action was taken to unify conflicting regulations applying to the street—parts of which run through both Arcadia and Sierra Madre. Arcadia portions previously always have been one way.

### 'Missing Link' Topic of Dr. Foster's Class

Dr. Belle Foster has resumed her Thursday evening classes in the Bethany Church rotunda.

Tonight she will speak on "The Missing Link," as part of her review lesson "Science and the Bible" series.

Church members and friends are invited to the 7:30 meetings.

## Tick Canyon Outing For Rock Hounds

The recently organized Sierra Madre geology group will go on their first field trip this Sunday to Tick Canyon, about 50 miles away. They plan to hunt for agate and howellite.

Twenty of the local rock hounds held their first meeting last Thursday evening at the home of Mrs. Ann Hurwit. Ruben Kachadorian, Caltech geologist, is their instructor.

According to Mrs. Hurwit, they plan to meet Thursday evening at 7:30.

### New Rabbi Steckel Guest Speaker at Jewish Luncheon

Members of the Womens' Division of the Foothill Jewish Community Center on North Lima, will have an opportunity to meet the new Rabbi, Dr. Charles Steckel, at the season's first luncheon, 12:30 p. m. Tuesday, Oct. 17.

Dr. Steckel will be guest speaker for the social hour.

## New Owners Rename Local Malt Shop

New owners of Herm's Malt Shop, 44 N. Baldwin avenue, officially started operation last week.

Owners Mr. and Mrs. Alex Retsuk have renamed the eating establishment "Rusty and Anne's Malt Shop."

The Retsuks have been residents of Sierra Madre since 1945 when they built their own home at 187 San Gabriel Court. Mr. Retsuk recently ended nine years' service as a dairyman with Crown City Dairy in Pasadena.

A Navy veteran, "Rusty" was with a Seabee stevedore outfit and took part in the Guadalcanal, New Georgia, Bougainville, and Leyte, (P. I.) campaigns.

He is a member of the Sierra Madre VFW Post and his hobbies, "when I have time," are fishing and bowling. Anna, a former Des Moines, Iowa, girl, has been Mrs. Retsuk since 1939. She says she likes fishing too. Anna has been working at the Malt Shop three years.

Mr. and Mrs. Herman Heitman, former owners of the malt shop, are planning a two-month trip to their old home city of Peru, Illinois.

# WRITER DESCRIBES BLAST EFFECTS OF ATOM BOMB

(Editor's note: This is the third in a series treating the subject of "Atomic Bomb Preparedness." Written by Mr. Conzelman, the articles are being presented by the Disaster Council, and the Kiwanis Club in cooperation with the NEWS. Much of the material is condensed from "To Be or Not To Be," Tau Beta Pi Association publication.)

BY JOHN E. CONZELMAN, JR.

It will be the intent of this section to discuss the effect of blast from an atom bomb detonated in the air.

Blast is a wave action caused by the sudden release of energy. It exerts a sudden push on persons and things some distance from the explosion. It is not a high wind, although high winds follow explosions. It is like the action involved in the collision of a string of billiard balls. Each ball moves the one ahead of it, but does not move itself.

The initial wave from an A bomb blast travels around 15,000 feet per second close to the explosion and drops off to 1000 feet per second in a few feet.

Blast from an atom bomb is exactly like blast from other explosions except that it lasts longer and is much more powerful. Blast pressures are probably of the order of 60 pounds per square inch at 15,000 feet.

There is some conflicting information concerning the maximum distance at which blast effect is fatal, but there are some rough assumptions we can make now.

Using the Japanese experience as an example, it apparently is not possible to establish with great accuracy the

radius within which people died from blast alone, since many were affected simultaneously by flash burns and radiation, as well as by blast.

The Nagasaki Prefectural Report reported that some men and animals died instantly from blast and heat at a distance of about 7,000 feet from the point of detonation. The blast pressure should be about 7 lbs. per square inch at this distance.

On the other hand, the Manhattan District Engineer's Report states that pressures developed on the ground under the explosions were not sufficient to kill more than those people within a few hundred feet of the center of damage. Therefore, it can be seen that great accuracy in predicting the maximum distance at which blast effect is fatal is

not possible with presently available information.

If an object is facing the blast, the pressure effect is much greater than in the "side-on" position. In well built up sections, relatively few people are exposed to direct blast, but people so placed are not safe as each building can provide missiles such as bricks or other structural material, which can easily prove fatal.

One of the most instructive facts concerning the atomic bombing of Nagasaki, was the survival of many people who were very near ground zero, but were in shelters. The fact that well constructed shelters offer reasonable protection from blast is a reassuring one because it is a matter we can do something about.

The problem of designing structures which will give adequate protection is complex for the following reasons:

1. Exact measurements of blast effects have either not been made or have not been released for security reasons.

2. The action on structures lies in the field of vibration mechanics which is an inherently complicated subject.

However, after examining the effects on structures in Japan, some general conclusions can be made as to the probable effects on similar American structures. Damage to earthquake resistant buildings near ground zero was slight in the bombing of the Japanese cities. Multi-story brick buildings were destroyed up to a radius of one mile. Wood residential buildings were destroyed up to 1-3/4 miles.

The above figures on the vulnerability of various buildings is given to establish the value of various buildings as shelters for human beings.

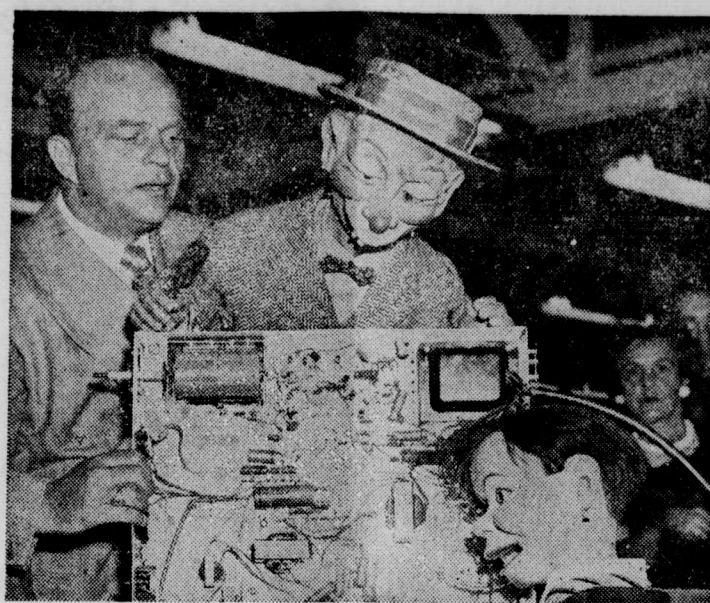

The type of building in Sierra Madre is quite vulnerable, but we are fortunate in not being a strategic target area. Such speculation concerning probable ground zero location is of course unfair and what we should really consider is what can we do to find maximum available protection.

Dangers from blast are threefold—(a) Flying missiles, (b) Lethal pressure, and (c) Burial under debris. They thus turn out to be the same dangers as occur from the demolition bombs which were used in World War II.

A realistic look at our city by competent people will quite readily determine what type of shelters will be best suited to us when we feel that time for such consideration is upon us. We can feel fortunate in having mostly single storied dwellings with plenty of room for ground shelter should the need arise.

## City Reports 'Big Building Month' Here

While building activity slowed to a "walk" in many Southland communities last month, substantial increases were reported in Sierra Madre.

A total \$115,162 in building permits was recorded at the City Hall during September, as compared with only \$81,373 in August. The September total was still down more than \$3000 from September of 1949, however.

Permits for eight new residences were issued by Building Inspector William Lees and City Engineer Harry H. Shatto. Permits of more than \$500 were issued to:

Marjorie M. Green, dwelling, 383 Sycamore Pl., \$6000; Sierra Eng. Co., alterations, 85 S. Baldwin, \$1000; James C. Harkin, dwelling, 373 Camillo St., \$7000; S. L. Bradshaw, alter dwelling, 205 N. Hermosa, \$2000.

## C. W. Bowen Passes Away at Home of Daughter Sunday

Clarence W. Bowen, recently of 220 Mariposa, passed away at the home of his daughter, Mrs. Marguerite B. Jadden in La Habra Heights, last Sunday.

Mr. Bowen suffered a broken leg in August and was taken to the Fullerton Hospital for several weeks and later to a nursing home in Whittier.

He was born in Pitcher, New York, in 1861, the son of Morrell and Julia F. Bowen. His mother was a member of the old and well known Warner family of N. Y. Mr. Bowen attended the University of Minnesota, and in 1885 was married to Margaret B. Wilson of Glendale Ohio.

With his family he moved to California in 1902 where Mr. Bowen engaged in the real estate business in Pasadena and Los Angeles, organizing the latter of which he served as president and general manager. He was an active member of the Jonathan Club, the Anandale Country Club and the Arrowhead Mountain Club.

Mr. Bowen retired from active business twenty years ago and in 1928 was married to Edith Blumer, a member of an old pioneer family in Sierra Madre, where they made their home until the passing of Mrs. Bowen in June of this year. Since that time Mr. Bowen has made his home in La Habra Heights.

Surviving relatives are two daughters, Mrs. Virginia K. Duarte, Mrs. Marguerite B. Jadden; a son, Neill Bowen; a sister, Bertha L. Bowen; seven grandchildren and seven great-grandchildren. Funeral services were held Tuesday, Oct. 10 in Whittier, with inurnment in Pasadena Mausoleum.

## Thieves Steal Auto Wheel

Thieves, apparently having a fondness for rear tires and wheels, raided two Sierra Madre cars during the weekend.

Mrs. Murray Gardner, 32 Park avenue, complains that the left rear wheel and tire from her 1949-model sedan were stolen sometime Saturday night. The car was parked in front of her house. A large rock had been placed under the axle of Mrs. Gardner's car.

Another attempted tire "heist" was reported Saturday morning by Mrs. A. Henderson, 791 Woodland Drive, who said the right rear fender skirt and hub cap were removed from her 1950-model car. The nuts had been removed from the studs, and the wheels came off when Mrs. Henderson tried to drive her car.

## MENTAL STIMULUS

Are your taxes high? 72 thousand alcoholics in California cost the state \$288,000,000 a year.

Americans spend nearly ten billion dollars annually for intoxicating beverages, over three billion for cigarettes, and BILLIONS (estimates seem to vary widely) for gambling.

For every dollar spent on alcoholic beverages, it costs the taxpayers between 5 and 8 dollars fighting the resulting crime and drunkenness. No figures have been given for the terrific waste of forestry, wild life, HUMAN LIFE, due to fires from carelessly thrown cigarettes. The resulting gang wars, crimes, etc., tied up with gambling is costing the taxpayers added billions.

Are your taxes high!!!

DIPHTHERIA SHOTS

Opening of schools in Los Angeles County was the "go" signal for the County Health Department's annual program of immunization against diphtheria for children through 12 years of age.

St. Rita's School will be visited by immunization technicians on Monday, Oct. 16, at 9:15 a. m., and Ascension Parish Day School will be visited at 10:45 the same day. Students at City School may be immunized on Thursday, Oct. 26, beginning at 9:15 a. m.

Notices will be sent home to parents by the school giving the dates of immunizations and requesting that parents whose children are in need of this diphtheria protection have it done, either by private physicians, at the health center, or through the school immunizing service.

Fall Shoes  
Look Bare

With skirt lengths inching up and legs on view again, shoes are a more important part of the fashion picture than ever before.

The trend is toward simple feminine pumps with very low-cut vamps often following D'Orsay lines. These naked-looking shoes are nearly always closed although there is an occasional open toe or heel, never both at once in the same shoe.

Silk braid and beading are the favorite ornamentation of shoe designers this season, says the National Shoe Institute.

New tailored and walking and suit shoes feature built-up leather heels, walled lasts and extension soles usually with closed toes, which are comfortable with the roomy walled-in construction.

Platform soles are as thin as possible, between one-eighth and one-quarter of an inch in thickness.

Carrying over from late Summer wear with prints into Fall is almost everybody's candidate for the prettiest daytime dress-up and party shoe, the black velvet pump. The "velvet touch" is high fashion in all accessories for Autumn, gloves, bags, scarfs and little hats as well as shoes.

The color story is Fall shoes reflects the color notes in dresses, coats and suits. Wine will replace bright red to a large extent. Navy, now an all-year-round color will be runner-up to black and the fashionable near-black browns and charcoal greys.

Jay walkers sometimes are late walkers.

Council Delays  
Action On  
'Registration'

Consideration of Communist-registration laws for Sierra Madre has been delayed "until the next meeting" of the City Council, scheduled for Tuesday, Oct. 24.

At this week's meeting, however, a letter was read from John C. Crowley of the League of California Cities in answer to the city's request for a recommendation from the League on whether to enact the ordinance or not.

"The State League has no official policy on the matter," Mr. Crowley wrote.

At a meeting of the Los Angeles County Division Board of Directors last week, however, Mr. Crowley said the registration laws were the subject of "considerable discussion."

"The result of the discussion was to take no action either for or against recommending such ordinances," the League representative stated. "Board members also pointed out that cities have received no official request urging the adoption of such laws from state and federal agencies best able to enforce the laws," he said.

New Suits  
Slim But  
Hem Eased

Arrow narrow from shoulder to hem, this is the silhouette of your suit for Fall, 1950.

Yes, suit skirts are straighter than ever this season and are usually accompanied by jackets that follow the slim pattern closely with feminine neckline and hip detailing to serve as pleasing softening notes.

Three-and-four-piece ensembles will be much in evidence. Sometimes with a plaid or self-fabric weskit added, occasionally with a handy extra skirt and in the four-piece units, accompanied by its own matching top.

Along with its pared-down lines, you can expect your jacket to be longer than last season, 26-inches at least. This mannish mood is greatly diminished, however, by the new Paris-inspired horseshoe neckline, so effective when filled in with a pastel or brightly hued scarf. Arched hiplines, in contrast to the new gently fitted waistlines, often have the slightest bit of padding for extra emphasis. Braid and velvet trims add even more femininity.

In many instances, suit jackets will be belted low on the waist and drop-shouldered in continuation of this deepset effect.

## More Padding

Although more up-building padding is being used for shoulders than in recent seasons, the melted-in look continues high in fashion favor. Sleeves most often end in a tightly nipped shirtwaist cuff. They are popular, too, with tiny free-flying cuffs or with the cuffs eliminated entirely and substituted by miniature pleats at the wrists.

Deep Banker's Grey flannel promises to become greatest in suit preference. With mixture and colorfully checked tweeds following closely behind. Still at the fashion helm are sheen gabardines, new to see in the tawny color range and overall-fashion-popular wine tones.

original motion be amended so that the Planners could only make a recommendation regarding the trees at the next meeting.

Immediately, Councilman Herman Barter moved that every tree the Planning Commission normally decides on be referred to the Council before removal.

"You're taking something away from the Planning Commission," Councilman Barter stated.

"Deciding on trees always has been a function of the Planners. You imply that you do not trust the commissioners."

Mr. Barter's motion died for want of a "second." Mayor W. A. Kinney seconded Mr. Eaton's motion. It passed with Councilman Barter voting "no," and Councilmen Alexander Black and Henry Korsmeier "passing"—that is, declining to vote on the issue.

"I think we should set a limit on how many times we can vote on one subject in one evening," Mr. Barter declared. He asked to be excused and walked out of the Council Chambers.

On motion of Mr. Eaton, the Council awarded the contract for the street lighting project to Southern California Edison, the only bidder.

New Glasses  
Flatter All

Strictly historical are those unlamented days when girls removed their glasses at parties to squint nervously for a seemingly endless evening.

Now, glasses are treated as costume accessories. A minimum eyeglass wardrobe consists of deep amber frames for tweeds; speckled, striped or plaid frames for daytime woollens, and dazzer rhinestones studded or gilded frames for party life. Just for looks, anyway you take it, are tiny eighteenth century scholar. They promise to sit on the noses of the smartest collegiennes this Fall.

Glasses are to be in fashion cases of lame, mock fur, red plush and jet beaded black satin.

## Hat Linés For Fall Refreshed

The excitement in Fall millinery headlines is all on the surface as rich-looking textured felts and fabrics are artfully manipulated in new silhouettes.

Imported velours, melusines and velvets vie with soleil-finished felts, lacquered top-hat plush and ingenious combinations of chenille, wool, ribbon and strip felt. Combinations of smooth-and-rough or matte-and-mirrored surfaces are effective in a single tone or in contrasting colors.

Crown Height Deep-fitting crowns are manipulated in softly curving folds, for a suggestion of height, in both brimmed and brimless silhouettes. Straight-forward pill-boxes, tricornes, bicorne, toques, turbans and berets, devoid of brims, have a clean, uncluttered look.

Bonnets and bretons with gently rolling or puffy, cushioned brims have simple, fitted crowns, blending smoothly into the brim in an unbroken curve. Swagger "walking hats", with soft crowns and dipping brims, are newly important with town and country tweeds.

Combinations Black is a beautiful "color" this Fall, particularly in monotone texture combinations. Copper, capucine, cinnamon, rust, chocolate and deep fuchsia, amethyst, violet, and burgundy; forest green, colleen and terrain; winter navy, royal and ice blue; smoke and charcoal greys; beige bark and taupe offer a wide range of flattering shades, made richer and deeper by the textured materials which are predominant in the Fall millinery scene.

## Fabrics to Have Depth

The feeling is depth in this Fall's fabrics. Fashion's lawn mower has cropped last year's shag rug surfaces down to curly and downy planes. Velvety textures are evidenced in silk, cotton, rayon on through to surprise fabrics like wool jersey and lace. In ballroom fabrics, the magnificent body is traceable to the high quota of silk.

The touch of woollens is thick, soft and piled. Their thickness is almost weightless as though loomed with air. Their softness is bodied for a wonderful effect of flow.

Then there are fabrics as furzey as hatter's plush, like Juillard's Bolivia woolen just once removed from velvet. Silk and rayon velvets now have broadloom patterned surfaces. Corduroy, because you wisely request it, is found in every wale, wide and generously spaced or close and silky as velvet. Powder puff fleeces, were born to be a belted wrap coat.

And there are the new chin-chillas with the merest suggestion of a raised nub. Or elegant veloury double cloth coatings that present two fuzzy sides for "Look ma, no lining" warmth.

Tweed designs are predominantly tiny with the majority leaning to diagonal, cobblestone and stepped treatments. Wool jersey makes faces, successfully mimicking velvet, bouche and crepe. It can also be had with the look of chambray, and is often seen in a

fool-the-experts herringbone tweed. You only know jersey is Jersey this fall by its characteristic elasticity.

Rayon with its new elaborate treatment rivals the now prevalent silk as a luxury fabric. It appears as a regal brocade, as a metallic threaded taffeta and as the popular tissue faille.

Always a favorite, silk, is available at moderate prices in taffeta, satin, serge, crepe and ottoman.

Dress weight woollens are thin as tracing paper. The addition of rabbit's hair gives a misty outline to dress woolls and rayons. From tiny patterned sheers can come your pet classic shirt-waist. From wool hopsacking a skirt can grow.

The earliest record of a Chamber of Commerce in Sierra Madre is January 9, 1911. Then the group was known as the Sierra Madre Board of Trade.

The Chamber of Commerce governing body is the Board of Directors, consisting of 15 civic and business-minded men. Meetings of the Board of Directors are held the first Monday of each month in the City Hall Council Chamber at 8 p. m. All Chamber of Commerce members and interested citizens are invited to attend these sessions and offer constructive suggestions or criticisms.

Objects of the Chamber, as set forth in their Constitution, are:

"To make Sierra Madre a better city in which to live and transact business, to promote and perpetuate the civic, commercial, social, economic and general interest of Sierra Madre and its surrounding territory; to inculcate in its members and the general public, a better understanding of the unlimited advantages of Sierra Madre, a higher appreciation of the value to the individual of disinterested community service; a keener understanding of community problems, and more liberal contribution of substance and self for the community's advancement.

## Letter to the Editor

To the Editor of the NEWS:

About these pepper trees. Your editor of the column "Around the Square" deserves honorable mention for sounding the alarm in the very first paragraph of your issue of October 5. In this correspondent's opinion, most emphatically the grand old pepper trees around the old P. E. station should remain there as long as they live. The mere suggestion that they "may possibly be removed" reminds us yet again of John Curran's ancient warning that "eternal vigilance is the price of liberty"—in this case a warning of the necessity to be on guard against all over-eager souls who would do violence to historic and aesthetic values in Our Town in the mistaken name of "Progress."

Even had the P. E. station been doomed to removal—which fortunately it has not—the retaining of the grand old pepper trees would still be a public benefaction to our many citizens whose alert eyes occasionally wander from the pursuit of their troubles and joys through Kersting Court long enough to rest their gaze for a moment upon those refreshing clouds of greenness that hover above the Island of Safety, not to mention the considerable number of passengers who wait beneath their shade for the next bus, and the hundreds of festive citizens, big and little, who gather beneath their brilliantly illuminated verdure each year at Holiday time for the Christmas carols, the Christmas Tree, and Santa Claus.

Especially now, that the Chamber of Commerce, with the help of Alfred Dewey, and Jacques Hahn, is carrying out its fine project of making the old P. E. station into a rustic municipal art gallery, the reasons for preserving and cherishing the pepper trees around it are doubly strong and logical. That particular spot is one of the remaining few visible that mark Sierra Madre as being different from all other Foothill towns. Where is another town that can point to a Public Square that is a Triangle with a Pioneer Pavilion in its center devoted to art and repose in the shade of primeval trees, while lively business goes on as usual only a few feet away?

Very different is Sierra Madre's attractive and compact triangle business center from the usual "main street" of indeterminate character and length that is to the visitor only a way through to the next town. Not only is Sierra Madre a lively and growing business center of normal rate of growth, it is also a haven to come home to for hundreds of people whose work obliges them to toil during the day in crowded and less pleasant places. Let's keep their welcome green. "Woodman, spare that tree."

Cordially yours,  
Edward Lloyd Voorhees.

## SIERRA MADRE NEWS.

In regard to the ultimate fate of our P. E. Station, I am selfish enough to wonder about the fate of our traveling public.

Is any provision to be made for us in regard to the storms of winter and the heat of summer?

Or must we face the intolerable situation which now prevails at Lamanda Park Junction where an elderly woman fainted on the street while waiting for the Sierra Madre car not too long ago?

—Mrs. M. A. Rigney, 153 Lowell.

(Editor's note: Chamber of Commerce President Al E. Morgan said this week that present Chamber plans include maintaining the depot for the use of waiting bus patrons as well as converting it into a city art gallery. Commuters would be able to wait inside on wintry days and sit on outside benches during the summer.)

## Writer Reviews Biography Of 'Forgotten First Citizen'

BY ISABEL STRADLEY

"For seventy years, down in the market place, he urged his fellows ever to take one more step along the road to democracy."

"Forgotten First Citizen," John Bigelow, by Margaret Clapp. John Bigelow was very much the first citizen of his era. He was 95 when he died in 1911—his life had been extraordinarily crammed with activity.

He was managing editor with William Cullen Bryant of the New York Evening Post; campaigner for Fremont and Tilden; consul in Paris and minister during the crucial days of the Civil War, and immediately after. He was an author, a leader in civil affairs, a practical reformer.

But set these and many other things down about him, and only the half will be told!

His tall figure, meticulously clad in old-fashioned garb was well known to most New Yorkers. Indeed they called him their "First Citizen" in the early years of the 19th century.

Perhaps the most dramatic years of his life were those spent in Paris during the Civil War. Certainly this is his chief claim to a place in American history, for he engaged at that time in a successful war of his own with Confederate agents.

His was a ceaseless, clever battle over the building of warships for the Confederate Navy; his inexhaustible energy, brilliant diplomacy, and perspicuity brought about the active friendship of many powerful groups, and the complete wreckage of the Confederate plans.

The book is not only an account of John Bigelow's life, but also of his times (1817-1911). It is a thorough book, documented and well planned. Here was a vigorous 19th century American who could have had much more in the way of position and public honor. As it was, he achieved substantial success and reputation among those who knew what he was, and all he achieved. But he steadily refused any opportunity to aggrandize himself.

One of his most cherished projects, and perhaps his greatest monument was the founding of the New York Public

Library.

In this connection it will be interesting to the citizens of this community, to note that John Bigelow's nephew, Mr. Bayard Bigelow, a resident of Sierra Madre, is a member of the Library Board of the Sierra Madre Public Library.

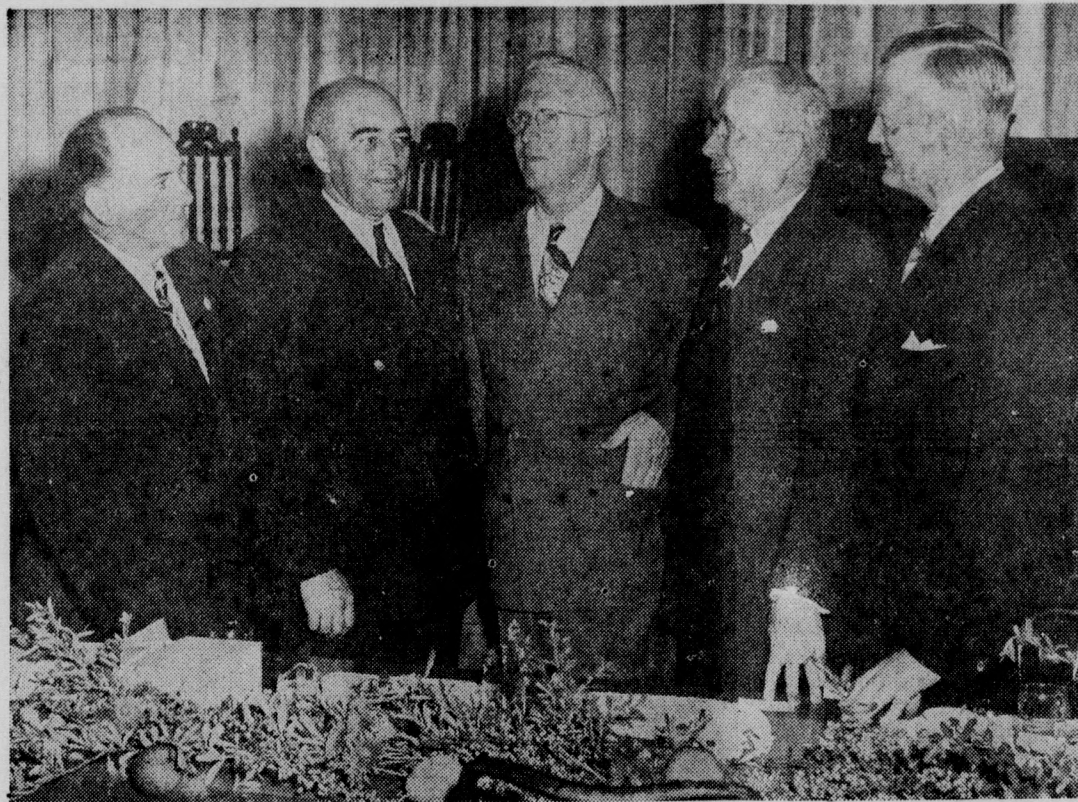

Among the books received at the library are:

Non-fiction: *Curtain*, Isn't Iron, Harsch; *Grass Roof*, Kang; *Korea Today*, McCune; *Roosevelt in Retrospect*, Gunther; *D. H. Lawrence*, Aldington; *Mister Jelly Roll*, Lomax; *Anybody Can Do Anything*, McDonald; *Bike-ways*, Frankel; *Look Younger, Live Longer*, Hauser; *Western Land and Water Use*, Sunderson; *Personal Problems of Every Day Life*, Travis; *Dianetics*, Hubbard. Fiction: *Reprisal*, Gordon; *Deeper the Heritage*, Elwood; *Seeker and the Sought*, Baumer; *Sunrise to Sunset*, Adams; *Brimstone in the Garden*, Cadell; *Diamond Wedding*, Steele; *Fiddler's Green*, Gann; *Merchant of the Ruby*, Harwood; *Best American Short Stories*, Foley; *Horns of Capricorn*, Miller; *High Valley*, Clift; *Case of Comrade Tulayev*, Serge; *Flight Into Space*, Wollheim; *Mysteries* by McCloy, Daly and Heberden.

### Dickens Fellowship Will Meet October 19

Members of Sierra Madre's Dickens Fellowship will meet Thursday, Oct. 19, at p. m. at the home of Mrs. Harry Pride and Miss Thomasella Graham, 349 N. Lima.

Readers at the meeting will be Mrs. Margaret Porterfield and Mrs. J. Earl Gossard.

STANDING AROUND the speakers' table during the Republican Box Supper and get-together held last Wednesday night at the Sierra Madre Woman's Clubhouse are (left to right): Frank Lanterman, State Assembly candidate for the 48th District; Carl Hinshaw, Congressman from the 20th District; Edward S. Shattuck, candidate for State Attorney General and principal speaker of the evening; McIntyre Faries, national Republican committeeman for California; and Bruce Reagan, incumbent Assemblyman from the 48th District.

## Shattuck Addresses Overflow Crowd at Republican Supper

Edward S. Shattuck, Republican candidate for Attorney General of the State of California, addressed an overflow crowd last Wednesday, at a box-supper held at the Woman's Clubhouse under the auspices of the 48th Republican Assembly and the Sierra Madre Republican Club, George Parr, president.

Mr. Shattuck was introduced by Carl Hinshaw, incumbent member of Congress from the 20th Congressional District. Mr. Hinshaw spoke of his long time association with Mr. Shattuck and stated that Mr. Shattuck had been one of the chief organizers of the Republican Assembly which has grown from a small organization to a strong, statewide, working organization of Republicans.

Mr. Shattuck stated that the office of Attorney General of the State of California was a most important position because of the fact that the Attorney General's office was called upon to advise the many departments and divisions of the state government on all legal matters. As one of the many important problems confronting the State of California which will have to be handled by the Attorney General and his office, he spoke of the tidelands oil matter pending between the State of California and the United States for agreement as to what lands actually constitute tidelands under the decision of the Supreme Court, holding that the United States owned the tidelands and all of the oil thereunder.

He pointed out as another important matter requiring the vigorous attention of the Attorney General, the controversy relating to the water of the Colorado River and the rights of the State of California to water now being claimed by the State of Arizona. He stated that although California had been trying desperately during the last several years to obtain action on the part of the Congress, giving it the right to institute an action in the Supreme Court to determine the rights of the states of Arizona and California and other states in the waters of the Colorado River, it had been impossible to do so and that unless such an action were permitted and successfully maintained, the future development of the State of California would be seriously handicapped. He also cited the Central Valley Water Project and the need for proper representation of the State of California and certain water districts in negotiation with Federal agencies. Mr. Shattuck went into considerable detail concerning these matters and showed a full knowledge of these subjects and stressed the point that it would be necessary for the Attorney General to vigorously support the rights of California in all of these matters.

Bruce Reagan, incumbent Assemblyman from the 48th District, spoke briefly and strongly commended Frank Lanterman, Republican candidate for the office of Assemblyman in the 48th District, as the person who should succeed him. He described Mr. Lanterman as being a person interested in civic affairs for many years and who was well informed as the problems needing attention in the 48th Assembly District. He introduced Mr. Lanterman, who spoke concerning his candidacy and platform.

## Vandals Hit Field School

Vandals broke into the kindergarten of Eugene Field School over the weekend, ransacking drawers and cupboards, but causing only minor damage.

Entry into the kindergarten—a separate unit from the rest of the new school—apparently was made by tossing a rock through a window and unlocking the latch. Police obtained several footprints both outside and inside the window entered and theorized that the vandals were small children.

The vandalism was discovered Sunday afternoon by Field School Principal J. Haworth. Miss Helen L. Cann, kindergarten teacher, said apparently nothing was stolen from the room.

A truck, stolen in Sierra Madre, was recovered in Monrovia after a chase of several blocks by policemen.

Monrovia officers spotted the truck immediately after its description was broadcast to all police cars in the area. They gave chase, but were "unable to get within two blocks" of the fast-moving vehicle. It was found, abandoned on North Magnolia street.

The truck was stolen from in front of the owner's house, I. B. Saffrin, 10½ W. Highland.

# Who Runs America?

the Congress?

the President?

OR YOU AND THE MAN NEXT DOOR?

**RUNNING AMERICA** is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

**IN MUCH OF THE WORLD** today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

**FREEDOM COMES UNDER ATTACK.** The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

**THE PEOPLE WEIGH THE FACTS.** In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

**THE "GRASS ROOTS" SIGNALS CONGRESS.** In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs  
American Farm Bureau Federation  
National Grange  
Veterans of Foreign Wars  
National Conference of Catholic Charities  
American Protestant Hospital Association

American Legion  
National Association of Small Business Men  
United States Chamber of Commerce  
National Association of Retail Grocers  
National Retail Dry Goods Association  
American Bar Association

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

## THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

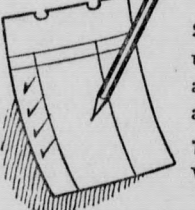

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

Sponsored by the Spanish Arts Poultry Farm, the team is made up entirely of Sierra Madre bowlers. Players include Tim Boyd, Clare Pesch, Clair Boggs, Norm Dumas, and Andy Liscomb.

The team won three out of four matches last week with a game total of 1083. Mr. Pesch led the local bowlers with an individual high score of 299.

Sierra Madre Merchants' Bowling team won 2 games in last Thursday's tussle. Ralph Valencia was high man on the team with a 613 scratch series.

Fred Krinke, local bowler, is now in New York to see the World Series.

### With the Ladies:

Mabel Du Four is bowling in the San Gabriel Valley's Women's Classic League at Alhambra Courts with a nice average of 160. She is also bowling in the Women's Handicap League for Engles Pharmacy on Monday nights.

Pat Belt of this city is also topping the pins in great style at Temple City Bowl this season.

### On the Fairways:

## Meetings To Plan 1950 Fund Drive

Members of the 1950 Community Fund Drive collections committee will hold two "strategy" meetings prior to the campaign's start on Oct. 23.

Roy Pickett, collections committee chairman of the Kiwanis-sponsored drive, said the first meeting was held Tuesday, Oct. 3.

Collection captains and representatives of various organizations met to discuss how many workers are needed and the possible methods of making collections.

A second meeting is scheduled for Oct. 23 at the Nursery School building. Planned as a last-minute "pep rally" for all workers, the meeting will feature the distribution of receipt books and lapel pins.

The Community Fund Drive in Sierra Madre this year will aid Boy Scouts, Girl Scouts, Toy Loan, Camp Fire Girls, YMCA, Nursery School, and Visiting Nurses' Association. 1950 drive chairman is John Conzelman.

## Library Exhibits Famed Field Poem

The Huntington Library has placed on exhibit a copy of Eugene Field's well-loved poem, "Little Boy Blue," in the handwriting of its author. The exhibit honors the 100th anniversary last month of the birth of Field.

The poem shown at the library is contained in a scrap book of Field's poems copied out by him in his own hand for a friend. Shown with Field's copy of the poem is an early limited edition of the poet's "With Trumpet and Drum," included in the exhibit to his "Little Boy Blue."

## SPEAKS AT PATIO PARTY

"Korea" was the topic chosen by Rev. Charles Phillips for his guest speaking appearance before Presbyterian Church Clipper Club members Monday night, Oct. 9.

The evening began with a patriotic dinner party at the home of Mr. and Mrs. William Vencil of W. Montecito. Co-hosts and hostesses were Mr. and Mrs. George Gillespie and Mr. and Mrs. Crowley.

Rev. Phillips spent some time in Northern Korea, returning to this country last year. He is now on the staff of the Arcadia Presbyterian Church.

## Vandals Snap Off School Path Posts

Last week the County Road Department completed the work of erecting guide posts from Sierra Madre Villa east on the boulevard to Eugene Field School. Purpose of the posts was to provide an "enclosed walkway" for pupils at the new school.

The workmen, in effect, had just laid down their tools when the phone started ringing bright and early Thursday morning. During the night, it seems, vandals drove a car or truck along the path and sheared off seven of the new posts.

The job of erecting new posts was finished again, by late afternoon—but this time, reinforced concrete posts were used.

## Cub Pack 1 Holds Meeting

Thirty-nine Cubs and more than 90 visitors and scouting officials were present at the first pack meeting this fall of Sierra Madre Cub Pack 1, held Sept. 28 in the City School auditorium.

A flag ceremony conducted by Den 1 opened the meeting, followed by community singing led by Francis Eakman and accompanied by Don Parker at the piano.

Den 5 won the award for Cub attendance, visitor attendance, handicraft, and the most advancements, and Den 6 won the award for the best behavior at the previous pack meeting.

A nail-driving contest was the entertainment feature of the evening with competition between the boys and then the fathers and boys. Despite the apparent "handicap" of using slightly larger nails, the dads won and were awarded the lollipop prizes.

Cubmaster Marcus Woodward spoke briefly on the "acute need" for at least three additional den mothers. Mr. Woodward stated that the Cubbing movement in Sierra Madre might suffer if some more Cub mothers do not help out.

## R. JOHNSON NAMED HOMECOMING HEAD

Robert P. Johnson, 549 Brookside Lane, will serve as chairman for this area during the annual Homecoming Day ceremonies at Occidental College Saturday, Oct. 21.

Events of the day will include afternoon open house at campus residences, dinner in the college dining room, a football game with Caltech in the evening, and a Homecoming Dance after the game.

### ALA MEETING

The American Legion Auxiliary will meet this evening, Oct. 12, at the home of Mrs. Frances Brain, 61 W. Highland.

## Shepherd's Homerun Gives Raiders 5-2 Win

A homerun in the ninth inning with two men on broke up the best ball game so far this year Sunday afternoon, and gave the Sierra Madre VFW Raiders a 5 to 2 victory over the Los Angeles Panthers.

Larry Shepherd, shortstop and team manager of the Raiders blasted the game-winning homer to break a 2 to 2 deadlock that had gripped the game since the third inning.

Shepherd also turned in a brilliant game in the field, making a hard stop and beautiful peg from deep short stop in the ninth inning.

Pitcher Emirhanian held the Panthers to six hits, and the Raiders were tough on defense. The Sierra Madreans played errorless ball for the second time in 22 games.

Billy Kiggins, second baseman, fielded eight chances without a miscue, a right-fielder, Vogel, the newest addition to the Raider roster, is now batting .750 in his two games.

The local semi-pro team will begin Foothill League play next Sunday against the Mandell Trunk Team. Game time is 2 p. m.

We've all heard the hearty cry of the young athlete at the beginning of the season as he comes from practice with his team mates. He's certain from the way his group is "clicking" that "It's a Winner" this season. Yet the coach, in his maturity, is not always so certain because he knows that winning combinations are determined finally in scheduled games and not on the field of practice. And so it is with Sierra Madre. We have a winner in our community on the basis of its record; on the basis of our planning for the future.

We want to be certain we have and keep a winning record. That's why Sierra Madre keeps right on "training on the practice" field.. so that in the finals it will measure up and truly earn the title "Winner." We know Sierra Madre can be that "Winner," by offering the best in merchandise . . . through friendly service . . . and through careful price planning so that those who "back" Sierra Madre can get real value for their money spent here. And YOU can let us know how we can serve you even better, you can coach us on your needs and preferences.

If You Shop In Sierra Madre**
